WHOLESALE LIST OF FIELD GROWN, CANNED & POTTED STOCK

FALL 1955 - SUBJECT TO CHANGE WITHOUT NOTICE:

- TERMS:** SHIPMENTS made on open account if satisfactory credit is established, otherwise cash should accompany order. No C.O.D. shipments made.
- PACKING:** PACKING COSTS will be added (on a cost basis) to your invoice. We take every precaution to pack our stock so it will reach you in the best of condition.
- SHIPPING:** GIVE US specific instructions and routing. If by truck or R. R. freight, be sure to give names of carriers and routing. THIS IS IMPORTANT. Shipments are made same day they are packed.
- PRICES:** ALL EVERGREENS are priced per each in quantities of 10, 100, and 1,000. 25 of any grade or variety at 100 rate. 250 of any grade and variety at 1,000 rate.
- HANDLING:** BOXES AND SPHAGNUM MOSS are taken to the field and as plants are removed from the soil, their roots are covered with moss and rushed to one of our controlled refrigerated storages, where plants are prepared for shipping.
- TRAVEL RISK AND CLAIMS:** STOCK TRAVELS at purchaser's risk and expense. If containers should be broken or shipment has been delayed, which might indicate stock is damaged, you should make notation on your freight or express bill before accepting shipment. Then file claim with carrier (not with Plumfield). However, we will be glad to help.
- SAMPLES:** SAMPLES will be charged for at the 100 rate plus packing and mailing costs.
- SURVIVAL:** WE CANNOT guarantee survival of stock as we have no control of it after shipment is made.
- LOCATION:** OFFICES AND STORAGES are 3 blocks west and 1 block south of Junction of U.S. 275 on U.S. 30 north edge of Fremont, or 1 block south of Fremont Country Club.

- NO SURVIVAL GUARANTEE AT THESE PRICES -

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. The second step is to gather relevant information and data. This can involve research, consultation with experts, or collecting data from various sources.

3. The third step is to analyze the information and data. This involves identifying patterns, trends, and relationships that can help to answer the question or solve the problem.

4. The fourth step is to develop a solution or answer. This involves applying the information and data to the problem and developing a plan or strategy to address it.

5. The fifth step is to implement the solution or answer. This involves putting the plan or strategy into action and monitoring the results to ensure that the problem is solved or the question is answered.

6. The sixth step is to evaluate the solution or answer. This involves assessing the effectiveness of the solution or answer and identifying any areas for improvement.

7. The seventh step is to communicate the solution or answer. This involves sharing the results of the analysis and the solution or answer with the relevant stakeholders.

8. The eighth step is to document the solution or answer. This involves creating a record of the process and the results, which can be used for future reference.

9. The ninth step is to review the solution or answer. This involves periodically reviewing the solution or answer to ensure that it remains effective and relevant.

10. The tenth step is to update the solution or answer. This involves making any necessary changes to the solution or answer based on new information or feedback.

Figure 1 consists of three panels labeled (a), (b), and (c). Panel (a) shows a participant sitting in a scanner, looking at a stimulus box. Panel (b) shows a stimulus box with a fixation cross and a target. Panel (c) shows a stimulus box with a fixation cross and a target.
